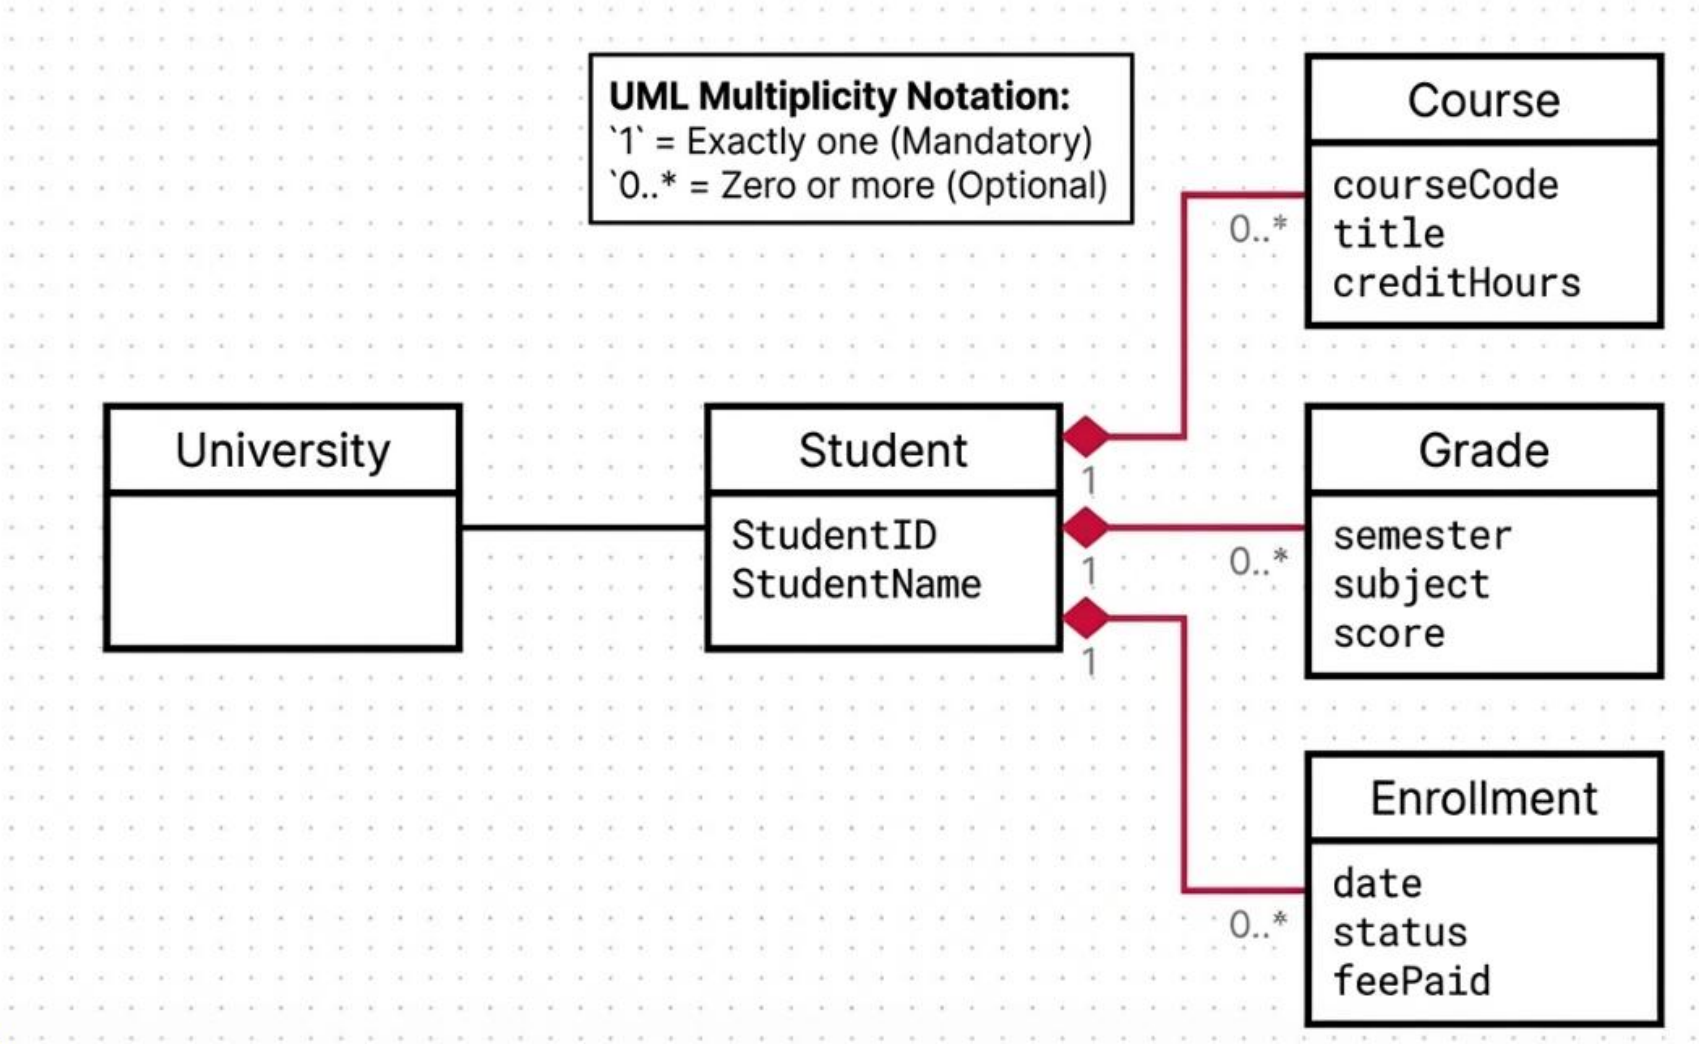
Lab6

Each of the following class declarations has errors. Locate as many as you can.

```
class Box{
private:
    double width;
    double length;
    double height;
public:
    Box(double w, l, h) { width = w; length = l; height = h; }
    Box(Box b) {   //copy constructor
        width = b.width;
       length = b.length;
       height = b.height; }
};
```


Implement the following UML
